Dr Evita Fernandez to be awarded Yudhvir Foundation memorial award

**Hyderabad:** The 29th Yudhvir Foundation Memorial Award would be conferred to Dr Evita Fernandez, for her 'selfless and compassionate' work in the field of maternal healthcare and contribution to the empowerment of women'. According to a press release, she is the Managing Trustee of the Fernandez Hospital Educational and Research Foundation and

in a private virtual ceremony. The award includes a citation and an honorarium of Rs 1 lakh.

Dr Evita Fernandez, a reputed and respected obstetrician has experience for over three decades, besides she holds fellowship of Royal College of Obstetricians and Gynaecologists, London. As Chairperson of Fernandez Foundation, her primary focus has been on women. She personally ensures that woman-centric care is provided at all the five hospital units, which delivers 10,000 babies a year. An annual award function is to be held on April 30, on the occasion of birth anniversary of late Yudhvira, a noted journalist and founder of the Hindi Milap, a popular daily in Hyderabad.

BJP stages protest at GHMC office demanding general body meeting

general body meeting and dealing with public issues. They criticized over the council for turning a blind eye on the public issues and said that no works have been done until now even after five months of virtual meeting by GHMC.

While protesting, the BJP leaders tried to barge into the mayor chamber. However, the police arrested them and shifted to police station.

The BJP activists also alleged that general body meeting is not being done held as the mayor and TRS corporators were afraid of the irregularities being surfaced. They also said that no money is being given to the contractors even after the bills are released. The BJP activists also raised slogans against the mayor for neglecting the public issues.

## University of Hyderabad RTGR gets Rs 6.18 crore Central grant

Department of Biotechnology (DBT), Ministry of Science and Technology, has sanctioned Rs 6.18 crore from 2021 to 2025 for the project 'Research and Service facilities for Plant Metabolomics and Proteomics', to Repository of Tomato Genomics Resources (RTGR), UoH.

The RTGR was established in 2010 with DBT funding to conduct advanced research in frontier areas of genomics, proteomics and metabolomics of tomato. The Centre has advanced instrumentations for conducting state-of-the-art research in proteomics and metabolomics.

The 'research and service facilities for plant metabolomics and proteomics' at RTGR will be providing service to UoH and other academic institutions, industry, seed companies on a charge basis. The RTGR will also train the users to comprehend and execute metabolomic and proteomic data analysis by conducting annual hands-on training workshops. Dr Y Sreelakshmi, Associate Professor, RTGR, will be coordinating the project to provide high-throughput plant metabolome and proteome analyses to the users.

## Hyderabad: PD Act not a deterrent to habitual drug offenders

## Representational Image

**Hyderabad:** The Preventive Detention Act also known as PD Act is a law that is invoked by the police on habitual and notorious offenders to keep them locked in jail for a period of one year. The Act is invoked against culprits because they are believed to be a threat to society, as said by the police always, while invoking the Act.

Though the Act was recently in the eye of storm as the Apex Court had observed that the police cannot just book anyone under the Act, but the police has a way to present their case before the court.

It has been seen that the Act is not acting as a deterrent to habitual drug offenders. As the city police is seen to be coming down heavily on drug peddlers it is found that most of them are habitual offenders; they were also booked under the PD Act earlier. Despite being booked under the PD Act a couple of times, the habitual offenders still continue to carry on with their illegal activities.

An officer, who wished to remain anonymous said, "the PD Act is booked against culprits who are habitual offenders. The Act is applied against any person/individual with intent that the person might change his behaviour and mend his way of living after being released in society. It happens in most cases, but of late it is observed that many drug peddlers caught in the recent drive against drugs are habitual offenders; they have been booked earlier in the PD Act."

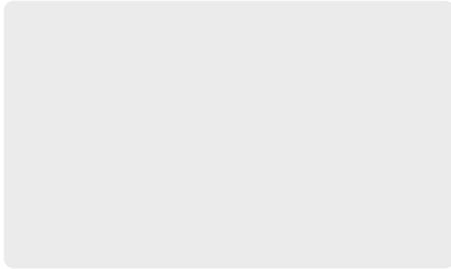

An advocate, Chandrasekhar Reddy, noted, "the PD Act is a severe punishment to any common man. But to a habitual offender it is not a serious punishment. The preventive detention is the most contentious part of the fundamental rights under Article 22(3), as it provides that if the person arrested or detained under PD laws the protection against arrest and detention provided under Article 22 (1) and 22 (2) shall not be available to that person."

"Also, in the recent drive against drugs, it was seen that the arrested persons had a criminal background of going to jail under the PD Act and it is not acting as deterrent to habitual offenders. The laws related to habitual offenders must be amended to bring real change in society," Reddy added.
