

Your One-stop Destination for Holistic Woman and Newborn Care

fernandez

Clinic | Necklace Road

A journey of 75 years

Since our inception in 1947, we have established ourselves as a trusted name in woman and newborn care in the twin states of Telangana and Andhra Pradesh.

Our clinical excellence, commitment to offering holistic, respectful and equitable care, have made us one of the most valued woman and newborn care providers.

Our latest offering is our highly-advanced Outpatient facility at Necklace Road, which brings us to the heart of Hyderabad and Secunderabad.

Managed by passionate doctors, midwives and specialists, this facility offers 360° care to women and newborns. Our priority will always be your voice and your choice.

What we have to offer

Fernandez Clinic, Necklace Road, is a modern, luxurious and highly advanced Outpatient care facility that offers a wide range of services in Obstetrics, Gynaecology, Paediatrics, Midwifery, Ultrasounds, Pharmacy and other allied services.

- Spanning over 40,000 sqft, this outpatient clinic is one of India's largest.
- A gamut of services, ensuring 360° care for women and newborns.
- Clinics equipped with advanced technological support which include superior USG machines, DOPPLER, simulators, NIBP, NST Scan machines, electro therapy machines, body composition analysers, ophthalmology, and dental care equipment.

Our key services

Obstetrics

This facility has dedicated outpatient clinics for Obstetric Care and Obstetric Medicine. Some of our best doctors are a part of the team of consultants who will be managing these clinics.

Fetal Medicine

The Fetal Medicine Clinic includes specialised fetal ultrasound, prenatal screening (fetal health check/non-invasive prenatal testing/quadruple marker biochemical screening), and prenatal diagnostic procedures (Amniocentesis/CVS/IUBT).

Twin Birth Clinic

Headed by experienced specialists, this facility also has a specialty clinic for multiple pregnancies.

Neonatology/Paediatrics

The Paediatric Clinic offers vaccination services and specialist consultations on paediatric development, paediatric ophthalmology, and paediatric dentistry.

Genetics

The dedicated Genetics Clinic offers pre-pregnancy counselling, and antenatal counselling for women whose serum screening tests are suggestive of high-risk for trisomy 21, 18 and 13; Fetal anomalies detected in ultrasound; early-onset FGR; and index child workup.

Gynaecology

The gynae outpatient procedures at Fernandez are immensely popular because they can be done at the same visit and help you avoid the need for hospitalisation, complications, added costs and anaesthesia. We offer comprehensive care in subfertility evaluation and management alongside perineal and urogynaecology clinics.

IUI Services

The Necklace Road Outpatient Clinic has a specially designed IUI Clinic just for you. At Fernandez, this procedure is performed by seasoned clinicians who have a remarkable success rate in helping couples become parents.

Midwifery

Taking forward our commitment to midwifery, this facility has Midwifery-led OP clinics and a Doula Clinic that caters to women with low-risk pregnancies.

Physiotherapy

Our team of expert physiotherapists offer consultation and sessions on physiotherapy during pregnancy, paediatric physiotherapy, and others.

Nutrition and Dietetics

The team of nutritionists and dietitians offer consultations and counselling in nutrition, nutrition and lifestyle management, and nutrition screening.

Get in touch

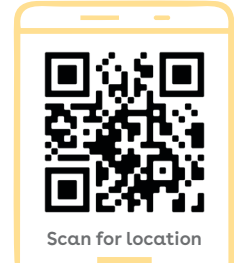

This new facility is located at Necklace Road, which is conveniently accessible to people visiting from Secunderabad and Hyderabad alike.
